

13 October 1955

MEMORANDUM FOR: Assistant Director Scientific Intelligence

SUBJECT: Broadcast Evaluation Section

At the OCB meeting on October 12, 1955, the Director described in general the progress report made by the Broadcast Evaluation Section. I have sent 20 copies to the Executive Officer of the OCB under a further memorandum, a copy of which is attached.

My suggestion in the covering memorandum that the views of the interested departments and agencies on the form and usefulness of these progress reports be obtained through TPIB was based on a belief that the members of that panel would have most direct contact with the consumers of the material you prepare. Furthermore, they are used to dealing discreetly with this somewhat anomalous situation of including both U. S. Government and non-Government broadcasting.
